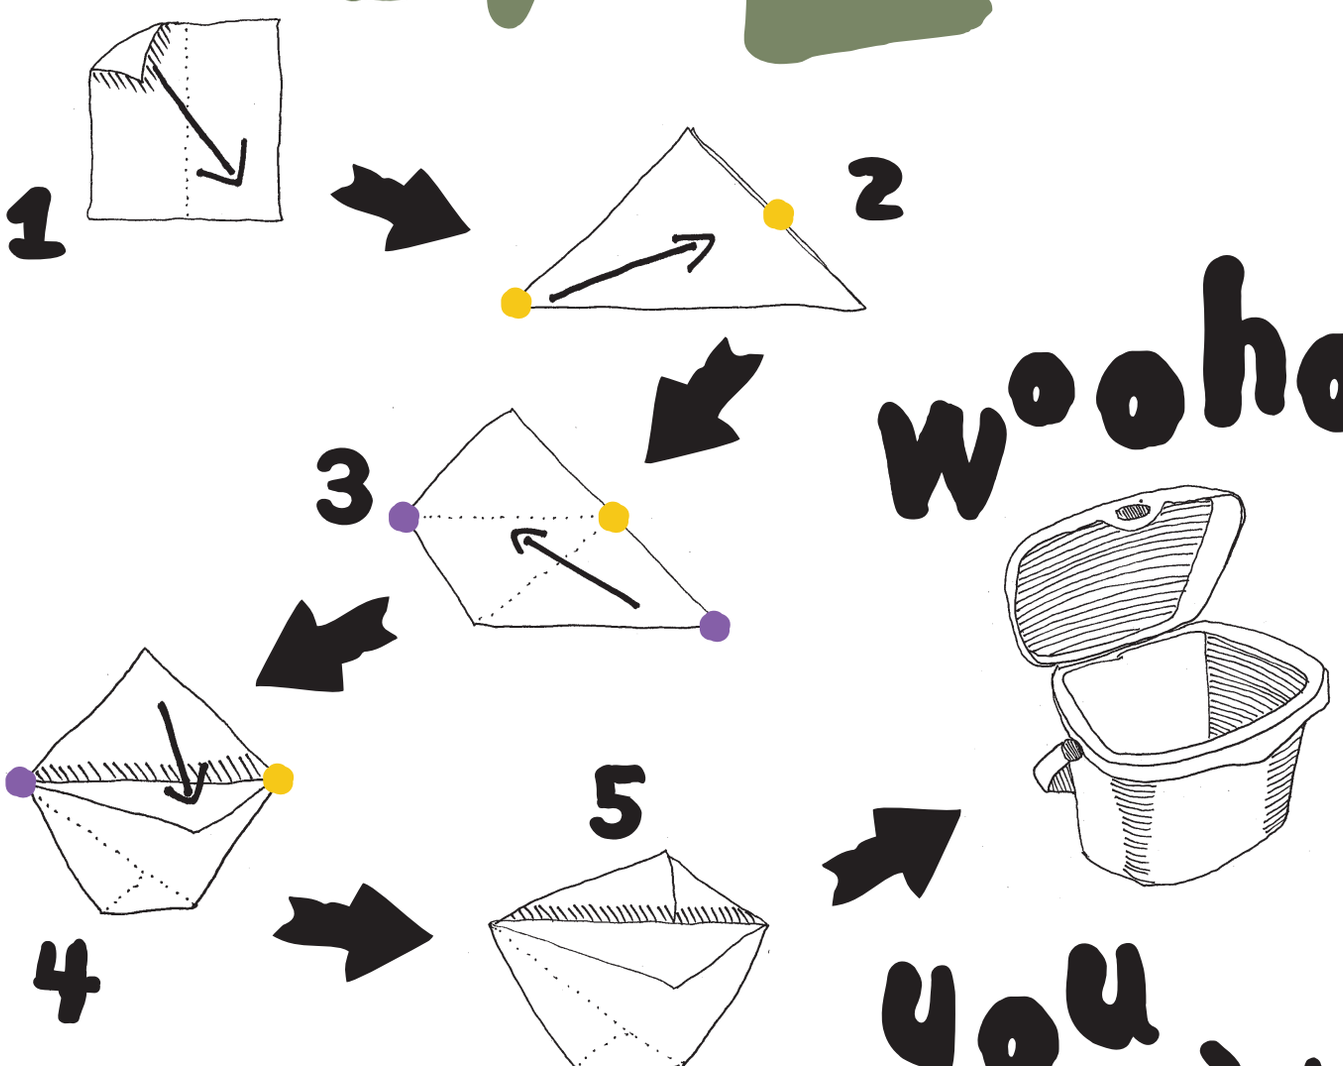
DIY Bin Liner

YARRA WASTE REVOLUTION

CITY OF YARRA



woohoo

you made it!

1. Lay out a sheet of newspaper, fold down the top left corner to the bottom edge, and trim the extra edge so that when the triangle is unfolded, it is a square.
2. Fold one corner to match the centre of the other two corners. From yellow to yellow.
3. Then, fold the other corner over the last fold. From purple to purple.
4. Unfold the two flaps at the top, folding them down either side.
5. Congratulations! You've made a plastic-free bin liner.
