Attachment 1 - Summary of Submissions – Draft Mobile Food Guidelines

	Trim Number	Object/Agree	Response
1	D11/72199	Object	Business owner does not want the MFV as they don't have the overheads businesses have to pay. A Gelato van was parked in a nearby car park and owner lost business as customers were not ordering ice-cream and drinks from their menu.
2	D11/69658	Object	Business owner in Queens Parade believes that it will impact on businesses that already pay high fees to have permanent residents in the area
3	D11/69660	Object	Business owner in North Fitzroy says the distance should be more than 200 meters as it would still be close enough to his business. Owner has put a great deal of time and money into his business to operate and doesn't see it fair if vans come in and take some his customers
4	D11/69084	Agree	Resident would like to have food vans in the area as many young people seek out this type of food. Argues that it will have an impact on local businesses and that this will drive for better products and will open the community to new and exciting dining experiences.
5	D11/67917	Object	Owner of a local laundry business feels it would be ludicrous to allow food vans into the area that is already so over populated with food stores. It is time for Council to demonstrate support of the local shop owners and deny the temptation of making a quick buck in licence fees.
6	D11/66423	Object	Business owner says that there are already too many fast food stores in the area and it would take customers away from already struggling businesses. If people want to operate a business in the area they should pay the same expenses to run a business. MFV should be kept to industrial suburbs were food businesses are limited.
7	D11/65855	Agree	Resident has been enjoying the presence of a facility in his area. It has livened up the area of Park Street, especially in summer. There should be more flexibility around the location. It attracts families with young children and says there is nothing wrong with a little competition.
8	D11/65538	Object	There are already too many cafes in the area that are struggling to operate at a sustainable level. 200 meters from businesses is also not far enough. Consumer shopping, spending on eating out is not as it was 5 years ago. Bridge Road is already suffering. How will you police the litter from the MFV, Brunswick street already accumulates a lot of waste over the weekend.

	Trim Number	Object/Agree	Response
9	D11/64918	Object	Business owner on Brunswick Street says that Council are creating an uneven playing field in an already difficult economic time for all small businesses. Owner also mentions paying ongoing hefty commercial council fees and asks if the MFV will be paying the same high rates?
10	D11/64570	Agree	Thinks the MFV will bring life and vibrancy to the location and at times can offer more flexible and appropriate offerings than permanent retail premises. Agrees with most of the guidelines.
11	D11/64562	Object	Business owner say the area is already well serviced with many cafes, restaurants and take-away food outlets. Traders shouldn't have to compete with MFV.
12	D11/63434	Object	Businesses owner says that MFV shouldn't be allowed as the rate paying food suppliers do not need any unfair competition.
13	D11/63512	Agree	Business owner says although it may be extra competition, would support the proposal as it would add another dimension to the eclectic feel of Yarra, and believes it would add to the attraction of the precinct.
14	D11/63515	Agree	Resident that also works in the area would love to see more MFV in the area. People follow these MFV from other parts of the city so it would encourage local attraction.
15	D11/79328	Object	Resident doesn't want any MFV in the area as she says there are enough food outlets in the area to cater for people late at night and doesn't want them in the residential areas either.
