

Stanley Street

Streetscape improvements & public art project

Overview

In October 2009, Yarra City Council will start construction work on a streetscape improvement and public art project at the intersection of Stanley & Smith Streets.

This project will add to the character and appearance of Smith Street, while also improving pedestrian safety.

The pedestrian crossover at the intersection will be raised, the asphalt footpaths resheeted, and new sawn bluestone kerbs, new native street trees, a drinking fountain and bike hoops introduced.

The alignment of the kerbs will not change and no carpark spaces will be removed.

Internationally-renowned Melbourne artist Glenn Romanis will create the artwork on the space outside the TAB. This artwork will be based on an aerial view of Smith Street and its surrounds, including the Yarra River and Merri Creek. Using inlaid stone, the artwork will map the local sites of past and present Aboriginal significance (as shown overleaf). Three new stone seats will be integrated into the artwork.

Construction work

The construction work is expected to start on Monday 5 October 2009 and will take about eight weeks to complete.

Local residents and businesses will continue to have access to their properties, with works undertaken in stages to minimise inconvenience to local residents and businesses.

The intersection of Stanley and Smith Streets will need to be closed for a few days for the raised pedestrian works. The contractor, Juniper Contractors, will notify affected individual properties a few days in advance of this closure.

Restrictions on parking and loading/unloading near the construction work will apply.

For more information, please contact Darul Islam, Council's Senior Engineer, on 9205 5748 or Graham Warner, Project Officer, on 0418 138 636.

Michael Poulter, from Juniper Contractors, can be contacted on 0412 587 051.
