Notes:  
1. This scheme and schedule have been prepared for planning permission purposes only.  
2. The design has been prepared with limit structural and services advice and coordination.  
3. Changes to the layouts and associated figures will be made during the design development.

Definitions:  
1. NSA Apartment areas have been measured according to the Property Council of Australia method of measurement.  
2. GFA has been measured to the external face of the external walls, including areas for vertical circulation, lift, stair and plant rooms.  
3. GBA has been measured to the external face of all built areas, including balconies, roof terraces, and slab extensions accommodating planter boxes and privacy screens. GBA excludes non-trafficable green roofs.  
4. Basement GFA has been measured to the external face of all shoring walls, including services, plant rooms, vertical circulation, and lifts.
