*The Convention on the Rights of Persons with Disabilities states that 'disability is an evolving concept and that disability results from the interaction between persons with impairments and attitudinal and environmental barriers that hinders their full and effective participation in society on an equal basis with others'.*

## **Our Vision**

*An inclusive and accessible Yarra that enables people with disability to participate, contribute and be represented in our community as equal citizens.*

## **Council's Commitment to Access and Inclusion**

Council plays a fundamental role in supporting people with disability to live full and active lives. People with a disability are a significant part of Yarra's diverse population and make an important contribution to our community.

Australia has been a signatory to the United Nations Assembly *Convention on Human Rights of Persons with Disabilities (2006)* since 2008: The UN Convention affirms the right of all people with disability to an adequate standard of living and it guarantees equality, dignity, and liberty, and full and equal access to justice, education, quality healthcare and to participation in public and cultural life.

The principles of the UN Convention are reflected in the Victorian *Charter of Human Rights and Responsibilities Act 2006*. The Act provides a set of rights, freedoms and responsibilities that governments must observe when creating laws, public policy or delivering services.

As a public authority, Council is required and is committed to demonstrate that it has properly considered human rights in all its decisions when making laws, developing policy and providing services.

The Access & Inclusion Strategy 2018-2024 vision is for an inclusive and accessible Yarra, encompassing a broad, strengths based approach to contribute towards self-actualisation of people with disability by improving access to information, built environment and facilities; engaging people with disability in consultations and events; and by creating a diverse and inclusive workforce. Universal Access and mainstream participation can bring solid and lasting change in the quality of lives of people with disability.

Based on the community voice and internal contributions, consecutive Action Plans developed under this Strategy will reflect the needs and aspirations of people with disability and their families, build on Council's strengths, and build community capacity.

This is underpinned by a principle that greater representation of people with disability across community will increase social cohesion and benefit all Yarra communities. Disability Action Plans are required (Victorian Disability Act 2006) to be developed for the purpose of:

1. Reducing barriers for persons with disabilities accessing information, goods, services and facilities;
2. Reducing barriers to persons with disabilities obtaining or maintaining employment;
3. Promoting inclusion and participation in the community; and
4. Achieving tangible changes in attitudes and practices that discriminate against persons with disabilities.

*(Legal requirements as per Section 38, Victorian Disability Act 2006)*

It is documented that the most common barriers preventing people with disability from social participation are discrimination (including unintentional discrimination), lack of awareness and poor attitudes, lack of affordability, and poor accessibility to information, services, built environment, public transport and community events. A whole of community approach is required to empower people with disability to participate, contribute and be represented in society the same as any other citizens.

*Out of 29 OECD countries, Australia was 27<sup>th</sup> regarding employment outcomes for people with disability. Only 53% of people with disability of working age in Australia are employed, compared to 83% of people without disability in the workforce. A third of workers with disability are in part time positions and are seeking more hours.*

Council's planning, programs and operations need to continue to strengthen the focus on creating an enabling environment for people with disability and ensure they can access appropriate support services. At the same time Council needs to support mainstream organisations to become more inclusive and develop skills and capacity to meet the needs of people with disability.

Yarra needs to support its workforce, businesses, community organisations and individuals, to view disability as a natural part of life that may affect anyone.

### **The Disability Advisory Group (DAC)**

In 1999 Yarra City Council initiated a resident based Disability Advisory Committee (DAC) to provide advice and support to Council on how it can improve the wellbeing of people with disability and their carers, including:

- Universal access;
- Inclusion principles;
- Best practice in Yarra City Council core activities; and,
- Assisting in our advocacy role to promote access and inclusion at the broader level.

The committee's membership includes people with disability, carers or family members of people with disability, who are able to represent the views of Yarra residents with disability.

Over the past twenty years DAC has played a pivotal role in advancing the rights of people with disability and providing advice to Council from the perspective of own experiences and

areas of expertise. The DAC will have a continuing role in supporting Council to implement this Strategy and the consecutive Action Plans.

### Yarra at a Glance

A broad definition of disability includes a range of permanent and temporary, physical and mental conditions of impairments. Council recognises that barriers experienced by people with disability arise primarily from attitudes, structures and practices that prevent people with disability from experiencing equal status, economic participation and social inclusion. These barriers, constructed by the society in which people with disability live, restrict their capabilities and opportunities by prejudice, discrimination, inaccessible environments and inadequate supports have potential to be reversed.

The interplay of environmental and individual factors are reflected in the strategic planning of Council that aims to protect and ensure the full and equal enjoyment of all human rights and fundamental freedoms by all persons with disabilities (and other diverse groups); and to promote respect for their inherent dignity and equal opportunity.

The age group percentage of Yarra residents with disability who require assistance with core activities is as follows:

- 0-14 years olds equates 2%
- 15-64 years old equates to 2%
- 65+ years old equates to 20%

However, it should be noted that the Census captures only those people who have identified as having a disability; through our knowledge and experience not all people with disability, or who have a child in their care with disability under-report.

*Only 1 in ten of people with disability (nation-wide) reported that their needs in social connection and community participation are met (Shut Out Report 2009)*

The percentage of persons with disability requiring assistance progressively increases between the ages of 65-94.

The vast majority of working age people (15 to 60 years old) with need for assistance are not in the labour force and only 8% are employed as compared to 75% for people who do not require assistance.

Of those requiring assistance, 44% do not speak English at home, compared to 24% for people who do not need assistance with core activities.

*“In Yarra, 14.8% of the population has a disability and 7.2% of the Yarra population are unpaid carers assisting their family members.*

*This totals 21% of Yarra’s population- a large proportion of our community that face challenges to actively participate in community life.”*

## **Strategy Development and Community Engagement & Consultation**

Council undertook an extensive consultation and engagement process to ensure that this Strategy is reflective of a broad range of stakeholders and benefits from the breadth of input from people with disability, their carers and other key stakeholders.

The consultation process was shared across this Strategy and Council's Active & Healthy Ageing Strategy, and this generated an opportunity to reflect on synergies within our work in these fields, and also the uniqueness of each approach.

The key steps in the development of this strategy were:

- Evaluation of the Inclusion for All Access and Inclusion Plan 2014-2017: successes, challenges and emerging priorities;
- Development of a Background & Issues Paper, including demographics, policy direction and reforms (specifically the National Disability Strategy, National Disability Insurance Scheme and My Aged Care reforms);
- Living Well in Yarra on line survey- 265 completed surveys;
- Living Well in Yarra focus groups and pop-up's;  
Service Provider and staff consultation and engagement; and,
- Consultation with the Disability Advisory Committee in each aspect of the consultation, including the development of Project Methodology

## **The Role of Council's Access and Inclusion Strategy in light of National Reforms**

The National Disability Care (NDIS) and My Aged Care reforms have a significant impact on the role of local government in supporting people with disability. Implementation of the NDIS is occurring on a regional basis and Council was part of the first transition region. Council determined not to be an NDIS service provider in June 2016, following a review of options and consideration of the implications of a new market driven model. Existing clients have been supported during the transition to NDIS.

In 2017 the national portal, My Aged Care (MAC), was introduced as the main entry point to the aged care system in Victoria. Once the reforms are fully implemented, the delivery of care can be provided by a range of organisations, of which Council may be just one of many. The MAC system is based on an open and competitive market model for providers and is designed to increase individual consumer choice. This may have implications for vulnerable groups in being able to access care and having equity of access to services in the future. In light of the MAC reforms, Council is reviewing its role in service delivery.

Given the changes happening through the NDIS, the Action Plans that underpin this strategy will be kept under review to identify new opportunities to advocate for, support, or directly run initiatives to grow livability in Yarra for people with disability. Council will closely observe the impact of the National Reforms on all residents, and in particular the more vulnerable cohorts, and ensure that the strategic actions reflect the needs of the community.

Council is also reviewing the way in which we partner on our Strategy development and implementation. We are currently exploring synergies with other Council Action Plans – such as the Active and Healthy Ageing Strategy and the 0 to 25 Strategy and looking for ways we can leverage common actions to create a city that is inclusive for all. Not only will this deliver on actions that support people with disability but it will also strengthen advocacy for the mutual benefit of all. The principles that underpin Universal Design, Accessible & Friendly Cities, Inclusive Communities and Intergenerational Connections apply across all ages and abilities. We understand that people can, for example, experience social isolation or limited mobility at any age, and we are working to ensure our responses to these issues and support residents at different life stages.

*An estimated 4.3 million Australians aged 16-65 have a disability, but the majority will not qualify for NDIS-funded packages. Approximately 460,000 people will participate in the NDIS across Australia by 2020. People who do not meet eligibility criteria need to rely on state and local supports*

### **Key themes derived from Community and Council Consultation & Engagement**

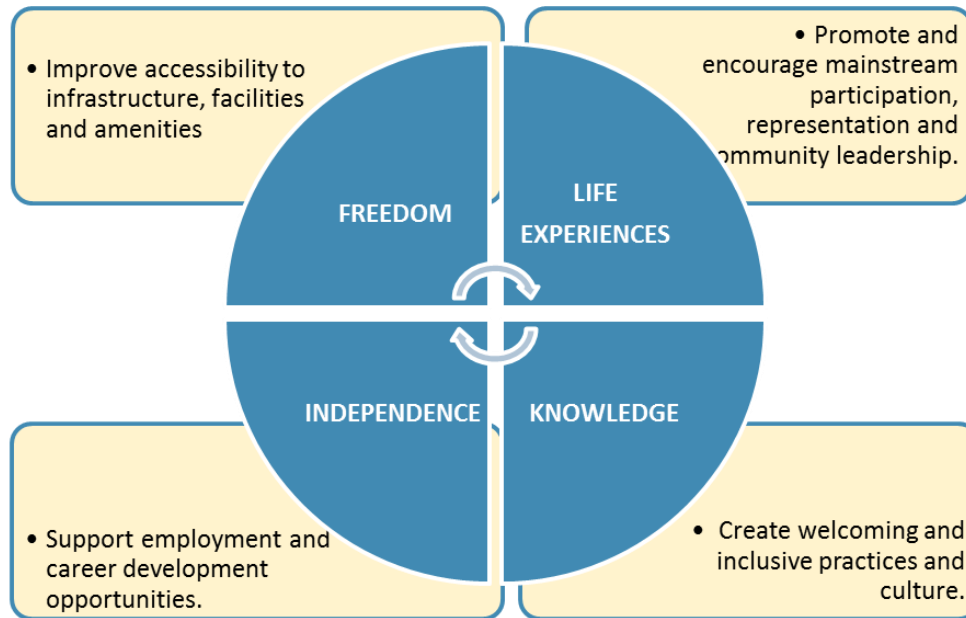

*I feel there is nothing out there for me. I am 59 years old and have mobility issues, so therefore spend most of my time at home- I feel isolated as now all of my friends have either died or moved out of the area.*

When analyzing the feedback from the community consultation four key themes emerged: Freedom, Life Experiences, Knowledge and Independence. The diagram below confirms how clearly the issues raised by our community (in the circle) aligns to the legislative requirements – see paragraph 1 p.3).

Therefore, by focusing on our community's priorities and developing appropriate actions and solutions to address their concerns, Council will be working towards the development of an Accessible and Inclusive City.

## Future Steps and Action Plans

This Access and Inclusion Strategy 2018-24 sets the future direction for Council in creating an inclusive and accessible Yarra that enables people with a disability to fulfill their potential as equal citizens. The strategy will be underpinned by three Action plans that each span two years:

This allows for some agility in how Council will respond to the key themes in the context of a shifting service delivery environment. In every action plan, responsibility will sit with a variety of Council branches to ensure that an Accessible and Inclusive approach is embedded across Council.

The Access & Inclusion Strategy 2018 –2024 will influence the overall Council Plan and annual action plan. Community feedback will also be used to inform other specific purpose plans, such as open space, walking, and library action plans.

## Key Goals and Strategies

### **1. Improve accessibility to infrastructure, facilities and amenities**
