Taking it to the streets – Abbotsford Local Area Place Making

Yarra City Council has been looking at ways to improve your local streets and create better spaces for the community.

Over the last six months, we've heard your ideas to tackle speeding and excessive traffic, and improve road safety. We want to help make your streets more liveable, and safer and easier to walk and ride.

Your top three concerns in Abbotsford were:

- rat-running traffic on local streets
- pedestrian safety,
- bike connectivity.

We've walked, cycled and driven around your streets, reviewed traffic data, met the community,

and engaged traffic and urban design experts to come up with a solution.

A working group made up of local residents, businesses, schools and councillors has also provided valuable information to help prepare the following draft plan for improving your neighbourhood streets.

Now we'd like to know what you think.

We encourage you to provide your feedback about the draft plan by **5pm, Tuesday 17 July 2018.**

Your feedback will help shape the final plan for your area.

Delivery of the projects is scheduled from 2019-20, subject to Council's endorsement, further consultation where required, detailed design and funding.

HAVE YOUR SAY

There are a number of ways to get involved.
