#	Page	Section	Para	Comment
G1	General Feedback			As per feedback provided at the most recent YUAAC meeting – please a) standardise the various forms of the phrase referring to a *sustainable local food system* b) consider including the definition of a local sustainable food system earlier in the document – e.g. just after the term is first mentioned
G2	General Feedback			Please standardise the various forms of the phrase that refers to the *planting, growing, producing, processing distributing, processing, consuming and recycling of food locally*
1	4	Intro		Please consider inserting *kerbside and laneway* before *planter boxes…*
2	4	Intro		Please consider editing the last phrase of the Intro to read *preserving of food and the composting of food waste.*
3	4	Why is it Important	1	Please consider replacing the word *production* with *planting and growing* to read *from planting and growing through processing*
4	4	Why is it Important	1	Please clarify if *resource and waste recovery* refers to *recycling* or something different
5	4	Why is it Important	2	Please consider starting this paragraph along the lines of *Urban Agriculture is becoming increasingly popular in a variety of forms including.*
6	4	Why is it Important	2	Please consider replacing *working in* with *contributing to*
7	4	What does it mean		Please consider deleting the words *the context of*
8	4	What does it mean	1	Please review the 2nd sentence in this para – it is very difficult to understand
9	4	What does it mean	2	Please consider listing the activities in the general order of the food cycle, to read *growing food in public places, local food swaps, food waste collections and municipal composting.*
10	4	What does it mean	2	Please review placement of commas
11	4	What does it mean	3	Please consider replacing *more residents* with *a higher proportion of*
12	4	What does it mean	3	As per the General Comment above, please standardise the various forms of *our food system, local food system* etc.
13	5	Where does UA fit	5	Please number the objectives 1, 2 & 3
14	5	Where does UA fit	5	Please review the term *Close relationships* – or are these actually *interdependencies?*
15	6	What does Yarra do	Bullet 4	Please consider rewording the phrase to become *the year to provide residents with skills such as …*

#	Page	Section	Para	Comment
16	7	What is a food system	Heading	As per the General Feedback above - please standardise the various forms of the phrase referring to a *sustainable local food system*
17	7	What is a food system	1	Please consider changing *food system is* to *food system comprises*
18	7	*Yarra's* role	Heading & Intro sentence	Please consider rewording this to be *Yarra's role in building and maintaining a sustainable local food system*
19	7	*Yarra's* role	Role 1	Please consider rewording this to become *To assist our community to grow food by facilitating…space*S (*plural)*
20	7	*Yarra's* role	Role 4	Please consider rewording this to become *To reduce food wastage by providing education and information … Food KnowHow.*
21	8	What are the ..	1	Please consider inserting the word *many* before the word *councils*
22	8	What are the ..	3	Please consider adding the word *further* in front of *build the*
23	8	What are the ..	3	Please consider adding the word *sufficient* in front of *flexibility to*
24	8	The benefits	Bullet 1	Please consider replacing *local nutritious* with *locally grown, nutritious*
25	8	The benefits	Bullet 2	Please consider re-ordering the *phrase sharing and growing* to reflect the order of *growing and sharing*
26	8	The benefits	Bullet 3	Please consider rewording the phrase to become *promoting the local growing and production of food. It also…*
27	8	The Challenges	Bullet 1	Please consider adding *or composting* to the very end of this bullet point.
28	8	The Challenges	Para foll bullets	Please consider changing *other land* to become *other public and private (?) land*
29	8	The Challenges	Para foll bullets	Please consider replacing the word *show* with *demonstrate*
30	8	The Challenges	Para foll bullets	Please consider editing the last sentence to start as *These activities have helped…*
31	9	Where we want..	Vision	As per the General Feedback above - please standardise the various forms of the phrase referring to a *sustainable local food system* vs *healthy and resilient* which is included in the Vision.
32	9	Where we want..	Obj 2 bullet 4	Are we looking to keep the strategy "local" ? If so, then please consider inserting the word *local* in front of *educational institutions*
33	9	Where we want..	Obj 3 bullet 2	Please standardise on the use of *Municipalities, local governments* etc – unless there is a difference between these terms in the context of the Strategy – if they are the same, then please choose one, if they are different, then please draw the distinction between them.
34	9	Where we want..	Obj 4	As per the General Feedback above - please consider replacing *a food system* with a *sustainable local food system*
35	9	Where we want..	Obj 4 Bullet 3	As per the general feedback provide above – please review the very limited inclusion of *growing and recycling* in this bullet point vs. all the other steps "in between"

#	Page	Section	Para	Comment
36	11	Action Plan	1.1.1	Evaluation – the number of residents is "ok", but what about also including "duration of participation" as a nod to "sustainability"?
37	12	Action Plan	1.2.1	Evaluation – please explicitly describe "who's" adoption of the guidelines is to be measured i.e. "Adoption of the guidelines by …."
38	12	Action Plan	1.2.2	Evaluation – please add the word "new" here i.e. *Number of new projects* to reflect the inclusion of "New" in the Action description
39	12	Action Plan	1.4	Evaluation – is this the only/best measure of "success"? Is there a means of evaluating the results/impact of this action?
40	13	Action Plan	1.6.1	Evaluation – is it possible to add an actual measure e.g. *A minimum of ?? plots established and evaluated*? Also, please add a brief description of the form that the evaluation would take.
41	13	Action Plan	1.8	Evaluation – Is the current description sufficient? Is the inclusion of recommendations for alternative gardening setups e.g. raised/wicking beds relevant to this action?
42	14	Action Plan	2.1	Action – is an "electronic information hub" in scope of this action (or another)?
43	14	Action Plan	2.2	Evaluation – please expand the current description to refer to more than mere attendance e.g. some privacy and evaluation methodology compliant means of recording and reporting the diversity of people who attend the workshops.
44	14-15	Action Plan	2.3.1	Action – possibly replace *tertiary* with *post-secondary* so that it is more clearly all-embracing of TAFE, universities etc.
45	15	Action Plan	2.5	Evaluation – please review this form of evaluation – it doesn't seem relevant to the action – possibly the action as stated could be evaluated by the number of downloads of the map?
46	16	Action Plan	3.1	Measureable – please consider including a number i.e. *at least?? public land owner*
47	16	Action Plan	3.2	Measureable – please consider the possible inclusion of a "success ratio" ratio e.g. number of successful applications/total number of applications – this might then help future applications to refer to past successful ones – learning from others'/previous experience
48	16	Action Plan	3.4.1	The Action to Develop and the Measures and Evaluation to Identify aren't aligned – if the action is to simply Identify, then what would be the value of this action? If the Action is to Develop, then please align the Measures and Evaluation to that e.g. Evaluation = Number of partnership agreements signed off.
49	17	Action Plan	3.4.2	The Action, Responsibility Support and Measureable Outcome of this Action don't seem to line up? Please review this action, since it is an important one, but difficult to fully understand apart from the Action description. P.S. The Measureable outcome for 3.4.3 seems to belong to this action?

#	Page	Section	Para	Comment
50	17	Action Plan	3.4.3	As above – please review the Measurable Outcome for this Action. Also the Evaluation here is confusing – please consider editing it to better match the Action description e.g. Number of opportunities identified. P.S. Please review the Responsibility Support & Measureable Outcomes for this action and 3.5 – possibly they need to be swapped/copied?
51	17	Action Plan	3.5	As above – some aspects of this Action seem to be mixed up w/3.4.3
52	18	Action Plan	4.1	Action – please review the wording, unsure that *Identify* and *as identified* both need to be included in the description Measureable Outcome – am assuming that this means *The number of ….*
53	19	Action Plan	4.4	Action – please review the phrase *public realm improvement projects* which is difficult for a lay person to understand Measureable Outcomes – "no offence intended" – but *potential option for* sounds a bit "wishy washy" as a measure ☺
54	19	Action Plan	4.5.2	Action & Measures – are *advantages and challenges* true measures of *effectiveness?* If the intention is to gather Lessons Learned from advantages and challenges, then possibly the Action description and Measures need to be better aligned.
55	20	Action Plan	4.6	As per query during the November 2018 YUAAC meeting the current version of this Action is difficult for the lay person to understand.
