

Yarra QBL Tool

Please provide the following information

Project ID:

Project name:

QBL assessment performed by:

Please select from drop-down box

Project type:

Please select from drop-down box

Asset type:

Quadruple Bottom Line (QBL) Assessment Tool

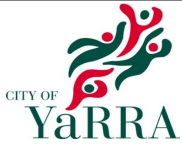

Complete the QBL tool to assess your project against environmental, economic, social and adaptation criteria

1. Complete cover sheet above
2. Follow the prompts to complete the QBL Tool and answer the questions
3. Save completed QBL tool to project TRIM folder or network drive
4. Attach completed QBL tool to project business case in IPM / Forecaster

QBL assessment performed by:

SOCIAL

Objective: To build and support a safe, healthy and cohesive community

Please answer the following questions about how your project supports or prevents the above objective.

1. Promoting access and inclusion

Does the project:

Support and create social opportunities for a diverse cross section of people?

Comments (optional)

Facilitate community participation for people experiencing social disadvantage (e.g. CALD, Aboriginal, people with a disability, aged)?

Comments (optional)

Align with the Charter of Human Rights and Responsibilities Act 2006? (click for link)

Comments (optional)

2. Promoting well-being

Does the project:

Promote mental and emotional well-being (e.g. fostering social connectedness, increasing access to community resources)?

Comments (optional)

Support physical health and well-being (e.g. active transport)?

Comments (optional)

Promote community safety (e.g. fostering respectful relationships, safety at night-time, welcoming places and spaces)?

Comments (optional)

3. Promoting community pride and identity

Does the project:

Support and create opportunities for self-expression and creativity (e.g. public art, creative spaces, performances, exhibitions)?

Comments (optional)

Foster diversity and respect amongst the community (e.g. CALD, Aboriginal, GLBTIQ)?

Comments (optional)

Promote and facilitate cultural expression (e.g. cultural events, workshops)?

Comments (optional)

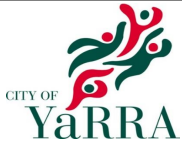

4. Highlights

Does the project include any other SOCIAL aspects (beneficial or detrimental) that you'd like to highlight?

Please detail below

ECONOMIC

Objective: To facilitate business through creating an environment conducive to economic activity and investment

Please answer the following questions about how your project supports or prevents the above objective.

1. Creating a smart city (job creation, employment and business growth)

Does the project:

Facilitate growth in skills and knowledge amongst Yarra businesses?

Comments (optional)

Support entrepreneurship and business innovation in Yarra?

Comments (optional)

Provide spaces for creative industries?

Comments (optional)

2. Creating vibrant and thriving precincts (growing visitor market and yield)

Does the project:

Support and promote Yarra's arts and cultural assets and experiences?

Comments (optional)

Develop the visitor experience and promote Yarra as a vibrant destination?

Comments (optional)

Improve streetscape amenity in retail precincts that address best practice standards for footpaths, landscaping, lighting and opportunity for public space?

Comments (optional)

3. Building a locally engaged business community (job creation, increasing local spend)

Does the project:

Promote employment pathways and training opportunities for socially disadvantaged communities?

Comments (optional)

Foster and promote a local business community?

Comments (optional)

Increase local employment opportunities?

Comments (optional)

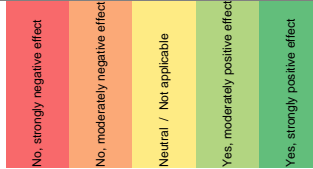

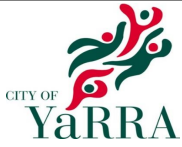

4. Highlights

Does the project include any other ECONOMIC aspects (beneficial or detrimental) that you'd like to highlight?

QBL assessment performed by:

ENVIRONMENT

Objective: To support a resilient and sustainable city using our fair share of the earths resources

Please answer the following questions about how your project supports or prevents the above objective.

1. Using resources wisely

Does the project:

Reduce the generation of waste to landfill?

Comments (optional)

Increase the use of recycled or reused materials?

Comments (optional)

Minimise potable water use?

Comments (optional)

2. Reducing greenhouse gas emissions and using sustainable energy

Does the project:

Reduce energy use / greenhouse gas emisisions compared to business as usual?

Comments (optional)

Increase the use of renewable energy (e.g. include solar panels)?

Comments (optional)

3. Empowering people to take local action

Does the project:

Empower the community to take local sustainability action?

Comments (optional)

Empower staff to act more sustainably?

Comments (optional)

Encourage increased uptake of sustainable transport (e.g. walk, cycle, public transport)?

Comments (optional)

4. Enhancing open space and urban ecology

Does the project:

Increase community access to open / green space?

Comments (optional)

Increase habitat area and / or biodiversity outcomes?

Comments (optional)

Improve water quality reaching Yarra's streams and rivers (e.g. Water Sensitive Urban Design (WSUD) such as swales, raingardens, green infrastructure)?

Comments (optional)

5. Incorporating Water Sensitive Urban Design (WSUD) Policy requirements

Have all feasible WSUD opportunities been incorporated into the project?

Has the WSUD Supporting Officer signed off at all relevant stages to confirm that WSUD Policy is being met?

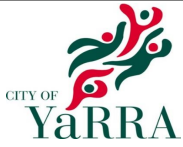

6. Highlights

Does the project include any other ENVIRONMENTAL aspects (beneficial or detrimental) that you'd like to highlight?

Please detail below

QBL assessment performed by:

ADAPTATION

Objective: To help the council and community cope and thrive during extreme weather

Please answer the following questions about how your project supports or prevents the above objective.

1. Supporting the community to cope during climate change and extreme weather

Does the project:

Reduce the urban heat island effect and provide shade (e.g. trees, shade sails, green roofs, new vegetated areas)?

Comments (optional)

Provide emergency evacuation refuges / cool spaces for the community to go to during extreme weather / heatwaves (e.g. library, evacuation centre)?

Comments (optional)

Support vulnerable communities to cope during extreme weather when Council services are unavailable (e.g. how to prepare simple meals, keep house cool)?

Comments (optional)

Educate and support the general community to cope and be more resilient during extreme weather (e.g. heatwave education campaigns, community gardens)?

Comments (optional)

2. Building the resilience of council infrastructure to climate change and an increase in extreme weather

Does the project:

Account for an increase in the frequency and severity of storm events leading to inundation (e.g. flood mitigation measures, increase resilience to flooding)?

Comments (optional)

Account for an increase in the number of extreme heat days (over 35 degrees) (e.g. improve energy efficiency, increase resilience to heatwaves)?

Comments (optional)

Account for a reduction in average rainfall and subsequent increase in drought conditions (e.g. measures to reduce potable water use, capture rainwater / stormwater, increase resilience to drought)?

Comments (optional)

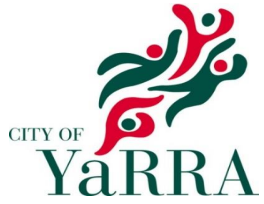

3. Highlights

Does the project include any other ADAPTATION aspects (beneficial or detrimental) that you'd like to highlight?
