CHANGE ROOM RENOVATION WORKS / STAGE 2 UPDATE

LATEST UPDATES

- > The new female change room facility is complete and opened to the public on Saturday 18 November.
- > The male change room facility will close **from Monday 27 November until Wednesday 29 November** to allow for improvement works. Access to temporary change rooms will be available during this time.
- > Works to the family and accessible change rooms will be completed in the next fortnight. On-deck showers and changing boxes will be completed shortly after.

RENOVATED FEMALE CHANGE NOW OPEN

It is with great pleasure we announce that the renovated female change room at Fitzroy Swimming Pool opened to the public on Saturday 18 November.

We thank all customers for their patience as we undertook the renovations to the change room and trust that you will be satisfied with the outcome.

Currently we have two banks of wooden lockers outside the female change room entrance from pool deck. When the new lockers arrive in December these lockers will be removed and the new lockers will be installed in the female change room alcove.

We value your feedback and would love to hear your comments on the newly renovated change room. Please fill out a customer feedback form, send us an email or chat to our friendly staff.

IMPROVEMENT WORKS TO THE MALE CHANGE ROOM

With the completion of the works to the female change room, **the male change room will now be closed for 3 days from Monday 27 November until Wednesday 29 November** to allow for defect works to occur in this space. During the 3 day closure the following will occur:

- > Floors will be levelled
- > Support structure of the 'U' shaped bench modified
- > Lighting upgrades
- > Privacy screen will be modified
- > The accessible toilet/shower rails will be modified to enable appropriate operation of the shower seat
- > Painting works.
- > The island bench seat will be expanded

While these works are being conducted access to the temporary change room is available. Following the completion of these works the temporary change facility will be removed from the venue.

CHANGE ROOM WORKS FITZROY SWIMMING POOL

FAMILY AND ACCESSIBLE CHANGE ROOM WORKS

Works to the family and accessible change rooms, will be completed in the next fortnight with on-deck showers and changing boxes to be completed shortly after.

FRONT ENTRANCE RAMP WORKS

Works on the redevelopment of the front entrance ramp began on Monday 23 October.

Stage 1 of these works is expected to be completed by Wednesday 29 November. The first stage of works is at the step entry end. These steps have been replaced with a compliant ramp.

Post the completion of Stage 1, works will move to the other end of our front entrance where the current ramp will become a step entry. It is anticipated that these works and the installation of the balustrade to the ramp and stairs will be completed by Wednesday 20 December.

NEW LOCKERS

New lockers will be arriving to Fitzroy Swimming Pool as part of a separate project and will be installed in December.

The new lockers are RFID enabled with a simple and user friendly design. Members and visit pass holders will press their RFID enabled membership card or RFID band at the individual locker reader and the locker can be securely opened and closed.

With a quick glance, users can see via the lock's button position if a locker is free or in use.

Lockers will be installed in the reception area for male patrons and lockers allocated for female patrons will be installed in the female change room alcove. Further banks of lockers will be installed near the shower pod, the family change courtyard and at the end of the toddler pool for use by all.

FURTHER INFORMATION

Thank you in advance for your patience as we undergo improvements to the facility.

We look forward to continuing to provide updates as this refurbishment progresses.
