

# CHANGE ROOM WORKS UPDATE

## FITZROY SWIMMING POOL

INVOLVE CONNECT ENJOY

OCTOBER 2017

## STAGE 2 / FEMALE, FAMILY AND ACCESSIBLE CHANGE ROOM WORKS UPDATE

With stage 2 of the change room renovation works at Fitzroy Swimming Pool well underway below is an update of the works currently being conducted and our progress.

### TIMELINES

- > Works to the female change room set for completion in mid-November.
- > The family, accessible change rooms, on-deck showers and changing boxes are set for completion soon after.

Please note – the above time line indications are subject to change and are dependent upon contractors and suppliers completing tasks in line with the project plan. Any amendments to the project timelines will be communicated accordingly.

### FRONT ENTRANCE RAMP WORKS

Works on the redevelopment of the front entrance ramp began on Monday 23 October.

Works will be undertaken in two stages to enable ramped access at all times.

The first stage will be at the step entry end. These steps will be replaced with a compliant ramp. Once this end is completed works will move to the other end where the current ramp will become a step entry.

In the first stage of works there will a reduction in the number of bike parking spaces available at the front entrance to the venue. The reduction is due to temporary hoarding required for the works being conducted and to ensure there is a clear path for pedestrians along Alexandra Parade. We have secured additional temporary bike parking spaces to reduce the impact on our customers that require bike parking.

### NEW LOCKERS

New lockers will be arriving to Fitzroy Swimming Pool as part of a separate project and will be installed in December. The new lockers are RFID enabled with a simple and user friendly design. Members and visit pass holders will press their RFID enabled membership card or RFID band at the individual locker reader and the locker can be securely opened and closed.

With a quick glance, users can see via the lock's button position if a locker is free or in use.

Please note – There are no lockers planned for installation within the change room. Lockers will be in the reception area, in the outdoor enclosure, in the alcove off the female change room, near the shower pod, the family change courtyard and at the end of the toddler pool.

# CHANGE ROOM WORKS FITZROY SWIMMING POOL

## IMPROVEMENT WORKS TO THE MALE CHANGE ROOM

Post the completion of the works to the female change room, the male change room will be closed for 3 days to allow for defect works to occur in this space. During the 3 day closure the following will occur:

- > Floors will be levelled
- > Support structure of the 'U' shaped bench modified
- > Lighting upgrades
- > Privacy screen will be modified
- > The accessible toilet/shower rails will be modified to enable appropriate operation of the shower seat
- > Additional painting works.
- > The island bench seat will be expanded

While these works are being conducted access to the temporary change room will be made available. Following the completion of these works the temporary change facility will be removed from the venue.

## FURTHER INFORMATION

Thank you in advance for your patience as we undergo improvements to the facility.

We look forward to continuing to provide updates as this refurbishment progresses.
