

# Our alignment to the United Nations Sustainable Development Goals

Applying the framework to achieve a better and more sustainable future for everyone

## engaged COMMUNITY

We are uplifting the community with access to the skills, tools and knowledge required to connect and grow in the digital world

## responsive ENVIRONMENT

We are using technology and innovation to power our climate emergency response and contribute to a greener city and more sustainable future

## smart ENABLERS

We are creating the right environment to unlock the true value of smart technology and drive sustainable and scalable transformation

## resilient COUNCIL

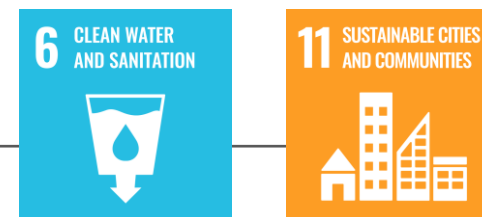

We are embedding data-led and innovative thinking as the foundation for decision making to increase efficiencies and inform new service models

## enhanced LIVEABILITY

We are ensuring smart technologies enhance the quality and amenity of our public spaces, and support improved safety, health and wellbeing

## smart INFRASTRUCTURE

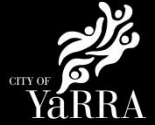

We are integrating city-scale smart infrastructure to connect and improve the amenity and lives of our communities

## sustainable ECONOMY

We are building an innovation ecosystem to attract smart sector industries and secure sustainable economic outcomes
