PLANNING FOR PLACES

11.03-1S

03/02/2022
VC199

Activity centres

Objective

To encourage the concentration of major retail, residential, commercial, administrative, entertainment and cultural developments into activity centres that are highly accessible to the community.

Strategies

Build up activity centres as a focus for high-quality development, activity and living by developing a network of activity centres that:

- Comprises a range of centres that differ in size and function.
- Is a focus for business, shopping, working, leisure and community facilities.
- Provides different types of housing, including forms of higher density housing.
- Is connected by transport.
- Maximises choices in services, employment and social interaction.

Support the role and function of each centre in the context of its classification, the policies for housing intensification, and development of the public transport network.

Undertake strategic planning for the use and development of land in and around activity centres.

Give clear direction on preferred locations for investment.

Encourage a diversity of housing types at higher densities in and around activity centres.

Reduce the number of private motorised trips by concentrating activities that generate high numbers of (non-freight) trips in highly accessible activity centres.

Improve access by walking, cycling and public transport to services and facilities.

Support the continued growth and diversification of activity centres to give communities access to a wide range of goods and services, provide local employment and support local economies.

Encourage economic activity and business synergies.

Improve the social, economic and environmental performance and amenity of activity centres.

Policy documents

Consider as relevant:

- *Urban Design Guidelines for Victoria* (Department of Environment, Land, Water and Planning, 2017)
- *Apartment Design Guidelines for Victoria* (Department of Environment, Land, Water and Planning, 2021)
- *Precinct Structure Planning Guidelines* (Victorian Planning Authority, 2021)

Activity centres - Metropolitan Melbourne

Strategies

Support the development and growth of Metropolitan Activity Centres by ensuring they:

- Are able to accommodate significant growth for a broad range of land uses.
- Are supported with appropriate infrastructure.
- Are hubs for public transport services.
- Offer good connectivity for a regional catchment.
- Provide high levels of amenity.

Locate significant new education, justice, community, administrative and health facilities that attract users from large geographic areas in or on the edge of Metropolitan Activity Centres or Major Activity Centres with good public transport.

Locate new small scale education, health and community facilities that meet local needs in or around Neighbourhood Activity Centres.

Ensure Neighbourhood Activity Centres are located within convenient walking distance in the design of new subdivisions.

Proposed C273yara

Neighbourhood Activity Centres

Heidelberg Road, Alphington

Support the expansion of the activity centre by directing taller development to its western end within the Alphington Paper Mill major regeneration area (Yarra Bend Developments).

Support moderate built form on land outside of the Alphington Paper Mill major regeneration area.

Enhance the quality of the public realm and pedestrian experience along Heidelberg Road, side streets and Chandler Highway.

Support the increase of sustainable modes of transport.

Minimise direct vehicle access onto Heidelberg Road.

Create a greater mix of uses within Precinct 3A of DDO18 (582 Heidelberg Road), including residential and offices to complement the existing shopping strip in the neighbourhood activity centre.

Support Precinct 3B as a diverse precinct consisting of restaurants, cafes, shops and residential uses which complements the facilities in the former Alphington Paper Mill site (Yarra Bend Development).

Yarra Bend Development (Alphington Paper Mill regeneration area – between Chandler Highway and Parkview Road)

Create a mixed-use precinct located towards Heidelberg Road that complements the existing shopping strip in the neighbourhood activity centre.

Support convenience retailing services and community facilities within walking distance of residential uses, with commercial employment opportunities along main road frontages.

Encourage walking and cycling to/from and around the site in all directions that provides an easy and pleasant experience and facilitate links with public transport.

Allow for a prominent development at the intersection of Chandler Highway and Heidelberg Road as a sole marker to the area, stepping down in height towards residential interface to the east and towards the Yarra River Corridor to maintain the prominence of the landscape setting to the south and low-rise residential setting to the east.

Retain links to the site's industrial past and encourage the adaptive reuse of existing significant heritage buildings for shared community and/or cultural uses.

Growth areas

Objective

To locate urban growth close to transport corridors and services and provide efficient and effective infrastructure to create sustainability benefits while protecting primary production, major sources of raw materials and valued environmental areas.

Strategies

Concentrate urban expansion into growth areas that are served by high-capacity public transport.

Implement the strategic directions in the Growth Area Framework Plans.

Encourage average overall residential densities in the growth areas of a minimum of 15 dwellings per net developable hectare, and over time, seek an overall increase in residential densities to more than 20 dwellings per net developable hectare.

Deliver timely and adequate provision of public transport and local and regional infrastructure and services, in line with a preferred sequence of land release.

YARRA PLANNING SCHEME

Provide for significant amounts of local employment opportunities and in some areas, provide large scale industrial or other more regional employment generators.

Create a network of mixed-use activity centres that are high quality, well designed and create a sense of place.

Provide a diversity of housing type and distribution.

Retain unique characteristics of established areas impacted by growth.

Protect and manage natural resources and areas of heritage, cultural and environmental significance.

Create well planned, easy to maintain and safe streets and neighbourhoods that reduce opportunities for crime, improve perceptions of safety and increase levels of community participation.

Develop Growth Area Framework Plans that will:

- Include objectives for each growth area.
- Identify the long term pattern of urban growth.
- Identify the location of broad urban development types, for example activity centre, residential, employment, freight centres and mixed use employment.
- Identify the boundaries of individual communities, landscape values and, as appropriate, the need for discrete urban breaks and how land uses in these breaks will be managed.
- Identify transport networks and options for investigation, such as future railway lines and stations, freight activity centres, freeways and arterial roads.
- Identify the location of open space to be retained for recreation, and/or biodiversity protection and/or flood risk reduction purposes guided and directed by regional biodiversity conservation strategies.
- Show significant waterways as opportunities for creating linear trails, along with areas required to be retained for biodiversity protection and/or flood risk reduction purposes.
- Identify appropriate uses for constrained areas, including quarry buffers.

Develop precinct structure plans consistent with the *Precinct Structure Planning Guidelines* (Victorian Planning Authority, 2021) approved by the Minister for Planning to:

- Establish a sense of place and community.
- Create greater housing choice, diversity and affordable places to live.
- Create highly accessible and vibrant activity centres.
- Provide for local employment and business activity.
- Provide better transport choices.
- Respond to climate change and increase environmental sustainability.
- Deliver accessible, integrated and adaptable community infrastructure.

Policy documents

Consider as relevant:

- Any applicable Growth Area Framework Plans (Department of Sustainability and Environment, 2006)
- *Precinct Structure Planning Guidelines* (Victorian Planning Authority, 2021)
- *Ministerial Direction No. 12 – Urban Growth Areas*

Peri-urban areas

Objective

To manage growth in peri-urban areas to protect and enhance their identified valued attributes.

Strategies

Identify and protect areas that are strategically important for the environment, biodiversity, landscape, open space, water, agriculture, energy, recreation, tourism, environment, cultural heritage, infrastructure, extractive and other natural resources.

Provide for development in established settlements that have capacity for growth having regard to complex ecosystems, landscapes, agricultural and recreational activities including in Warragul-Drouin, Bacchus Marsh, Torquay-Jan Juc, Gisborne, Kyneton, Wonthaggi, Kilmore, Broadford, Seymour and Ballan and other towns identified by Regional Growth Plans as having potential for growth.

Establish growth boundaries for peri-urban towns to avoid urban sprawl and protect agricultural land and environmental assets.

Enhance the character, identity, attractiveness and amenity of peri-urban towns.

Prevent dispersed settlement and provide for non-urban breaks between urban areas.

Ensure development is linked to the timely and viable provision of physical and social infrastructure.

Improve connections to regional and metropolitan transport services.

11.03-4S20/03/2023
VC229**Coastal settlement****Objective**

To plan for sustainable coastal development.

Strategies

Plan and manage coastal population growth and increased visitation so that impacts do not cause unsustainable use of coastal resources.

Support a network of diverse coastal settlements that provide for a broad range of housing types, economic opportunities and services.

Identify a clear settlement boundary around coastal settlements to ensure that growth in coastal areas is planned and coastal values are protected. Where no settlement boundary is identified, the extent of a settlement is defined by the extent of existing urban zoned land and any land identified on a plan in the planning scheme for future urban settlement.

Minimise linear urban sprawl along the coastal edge and ribbon development in rural landscapes.

Protect areas between settlements for non-urban use.

Limit development in identified coastal hazard areas, on ridgelines, primary coastal dune systems, shorelines of estuaries, wetlands and low-lying coastal areas, or where coastal processes may be detrimentally impacted.

Encourage the restructure of old and inappropriate subdivisions to reduce development impacts on the environment.

Ensure a sustainable water supply, stormwater management and sewerage treatment for all development.

Minimise the quantity and enhance the quality of stormwater discharge from new development into the ocean, bays and estuaries.

Prevent the development of new residential canal estates.

Distinctive areas and landscapes

Objective

To recognise the importance of distinctive areas and landscapes to the people of Victoria and protect and enhance the valued attributes of identified or declared distinctive areas and landscapes.

Strategies

Recognise the unique features and special characteristics of these areas and landscapes.

Implement the strategic directions of approved Localised Planning Statements and Statements of Planning Policy.

Integrate policy development, implementation and decision-making for declared areas under Statements of Planning policy.

Recognise the important role these areas play in the state as tourist destinations.

Protect the identified key values and activities of these areas.

Enhance conservation of the environment, including the unique habitats, ecosystems and biodiversity of these areas.

Support use and development where it enhances the valued characteristics of these areas.

Avoid use and development that could undermine the long-term natural or non-urban use of land in these areas.

Protect areas that are important for food production.

Regional and local places

Objective

To facilitate integrated place-based planning.

Strategies

Integrate relevant planning considerations to provide specific direction for the planning of sites, places, neighbourhoods and towns.

Consider the distinctive characteristics and needs of regional and local places in planning for future land use and development.
