

# Street Garden Neighbour Support

A street garden is any non-edible community led planting initiative in Council managed streetscapes. These gardens are supported by Council and cared for by the community. Planting options include planting within your lawn nature strip, planting within an existing tree square located within the footpath or road reserve, or in a street garden bed. Council does not permit any planting in median strips or in tree squares in the centre of a road.

Council encourages the formation of Growing Groups – where multiple people in a street cooperate in the establishment and maintenance of a street garden. If you are interested in forming a Growing Group

I (insert name) \_\_\_\_\_ seek your endorsement to create a street garden in the public space outside:

--

Address	Name	Signature	Approve	Dissap- prove	Growing Group

\*Please ensure that residents living either side of the proposed street garden/s have been consulted and signed this form.
