Indigenous Australians were the world’s first astronomers. But their knowledge is now at risk

Published: May 19, 2026 1.37pm AEST

Oliver Strowe/Getty

I’m a proud Yorta Yorta and Barapa Barapa man, an Indigenous astronomer and a trainee ecologist.

When I look at the night sky, I don’t just see stars. Instead, I see an ancient knowledge system that has guided people, culture and Country for tens of thousands of years.
